 Scanner Central Admin Utility and Scan to Share Point

Centralized administration function

Manage multiple scanners on a network from one location, simplifying batch software installs and monitoring operation status. This significantly reduces the cost and work that goes into setting up, maintaining and expanding a network of scanners on a large scale.

New ScanSnap mode features

ScanSnap series products are popular among home and small office users because they offer easy "One Touch" operation to create PDF files. With ScandAll PRO's new ScanSnap mode function, this same functionality is now available on higher performance Workgroup scanners.

Kofax VRS Professional

The fi-6230Z comes with Kofax VRS version 5. This powerful image clean-up software optimizes scan settings automatically.

"Intelligent" Scanning

Automatic job separation function

Paper protection function

Auto page size and color detection functions

Enhanced Plastic card scanning performance

Ultrasonic double-feed detection

ABBYY FineReader for ScanSnap

The fi-6230Z includes ABBYY FineReader for ScanSnap OCR Software, which creates editable MS Word, Excel or PowerPoint documents.
